	21 i	plastic palisade	average 6 cm, landscaping, height 35 cm/piece	3,08 €	3,70 €

This recycling material TOPeco is machined similarly as wood. Cutting and connecting material is possible use as with wood. Full plast material can increase the volume under the influence of heat and under the influence of cold reduces the volume.

Very important is mounting and anchoring.

We recommend dock board every 50 - 80 cm, with dilatation for fasteners.

We advise you during assembly.
